### 5.3 Detailed Section Route

Two way light rail line non-dedicated (within traffic lane) on Sir Donald Bradman Drive.

Mile End stop on Sir Donald Bradman Drv, 100m west of James Congdon Road intersection. The road could be widened to accommodate a dedicated 2 way light rail line just for the station section if required.

South Road stop 100m west of South Road intersection in centre of median strip. Parking lanes on Sir Donald Bradman would need to be removed to allow road widening around the South Road stop to prevent traffic build-up behind stationary tram. New pedestrian crossing to be installed to allow pedestrians to cross Sir Donald Bradman Drive at South Road stop.

Bagot Ave stop 80m east of Bagot Ave intersection in centre of median strip. Parking lanes on Sir Donald Bradman would need to be removed to allow road widening around the Bagot Ave stop to prevent traffic build-up behind stationary tram. New pedestrian crossing to be installed to allow pedestrians to cross Sir Donald Bradman Drive at Bagot Ave stop.

Two way light rail line non-dedicated (within traffic lanes) on Sir Donald Bradman Drive between Bagot Ave and Marion Road.

Dedicated two way light rail line in the centre of Sir Donald Bradman Drive between Marion Road and Airport Road, to avoid traffic disruptions.

Marion Road stop 100m west of Marion Road intersection, in centre of median strip. New pedestrian crossing to be installed to allow pedestrians to cross Sir Donald Bradman Drive at Marion Road stop.
