north south corridor southern expressway duplication

Short-term closure of Lander Road

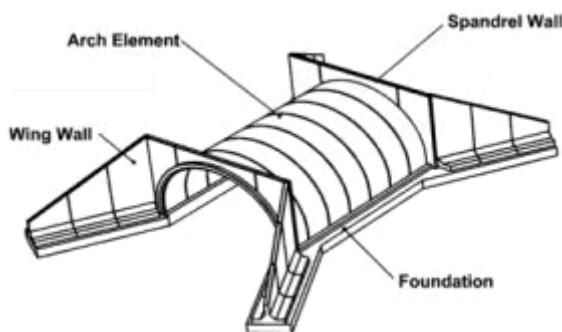

8 March 2013

Dear Resident / Business Owner,

I am writing to advise that there will be a short-term closure of Lander Road at the Southern Expressway from 6am on Saturday 16 March 2013 until 4pm on Monday 18 March 2013 for works for the Southern Expressway Duplication project.

This temporary closure will enable final works at the Lander Road arch under the expressway to be completed.

The works will involve the installation of spandrel walls and wing walls (which form part of the arch structure). The diagram below shows these elements.

Should we encounter any unforeseen delays or adverse weather during these works we be required to continue into Tuesday 19 March 2013. If this occurs, advice will be provided via Variable Message Signs (VMS).

During the closure vehicles will be detoured via Young Street or Seacombe Road.

Pedestrians and cyclists will be detoured via Young Street or Majors Road on Saturday 16 and Sunday 17 March 2013. On Monday 18 March (and Tuesday 19 March if works are undertaken) pedestrian and cyclist access will be available on Lander Road and no detour is required.

All detours will be clearly marked.

Majors Road will be closed at the Southern Expressway bridge from 13 March 2013 until November 2013 and therefore cannot be used as an alternative route during this short-term closure of Lander Road.

DELIVERING OUR TRANSPORT FUTURE NOW

north south corridor
southern expressway duplication

Short-term closure of Lander Road

Work will be undertaken between 6am and 7pm (weather permitting). At times, it may be necessary for crews to work outside of these times.

If you have any concerns, questions or require any further information about this road closure, please don't hesitate to contact the project team by email at SEDenquiries@bajvsed.com.au or by calling 1300 626 097.

The project team thanks you for your patience and understanding during these important infrastructure works.

Yours sincerely

Danny Parkinson
Project Director, Boulderstone Abigroup Joint Venture
